To our Friends at Whippany Railway Museum,

The family of the late Joseph Supor, Jr. is proud to announce the donation of our 100 year old steam locomotive, Old Southern Number 385 to the Whippany Railway Museum. This beautiful steam locomotive has been an important part of the history of the Supor Family and was loved by Joseph Supor, Jr.

We appreciate how important this locomotive is to the history of the Whippany Railway Museum and are extremely pleased that it will be reunited with its past. It is our hope that this marvel of American rail engineering will bring many years of happiness to all its visitors and to the staff of Whippany Railway Museum.

Joseph Supor, III
